Bob Simpson Is the Greatest Hurdler Ever Seen on a Cinder Path.

Coppright, 1916, by The Press Publishing Co, (The New York Evening World). LL possible doubt about the authenticity of Bob Simpson's world's hurdle record of 14 3-5 seconds was shattered Saturday in the Conference Meet in Chicago, when Simpson ran in 14 3-5 seconds again. A record made in the Western intercollegiate championships is just as good as one made anywhere else in the world.

And besides equalling his new world's record again in the 120-yard event the University of Missouri athlete won the low hurdles (220 yards) in 23 4-5 seconds and took second place in the running broad jump. Simpson has shown himself to be, without any possible doubt, the greatest hurdier-the greatest hurdling-sprinting-jumping combinationever seen on a cinder path.

Another great performance at the Western championship meet was the quarter-mile run by Binga Desmond ord of 474-5 seconds almost before the ink with which it was recorded had time to dry. Records don't last long these days. Desmond is another

He hasn't yet reached his limit.

What a wonderful Olympic team these college boys of to-day would make! There wouldn't be a single event on the programme—except the 15-pound hammer throw—in which they wouldn't be more than likely to establish a new world's record. It may have been something like this in the days of ancient Greece, when the single for the golden plum in the National this promises to be the most momentous week in an already lively season.

Young Wefers is a tail, determined young-ster, well built and certainly well bred for sprinting. If there is anything in heredity he should be up among the world's champions in another year or two.

Through with his agreement to box Johnny Dundee, Benny's manager had a notion that it would be better for Benny to give Dundee the overlook, which is the antithesis of the once-over. Benny is matched for a ten-round bout with Freddy Weish. Should anything happen to Benny before that fight it would be a very sad affair, for Benny thinks that this time he really has a chance to knock Weish out in ten rounds, even in a club run by Freddy's manager. And probably he will have. It only takes one—on the right spot.

Now that the season has settled into the grind that withers morning glories and brings out the old line strength in hitting, the men with the seasoned wallop are climbing to the top in the records. From an obscure place well down the line Ty Cobb has climbed into sixth resistors and in blace well down the line IV Cobb has climbed into sixth position and is really entitled to higher rating, as McNaily and Boland, who have played in but comparatively few games, are leading. It may also be noted that Dubuc, another of the leaders, is a pitcher. Of the regular line hitters the only men to lead Cobb are Tris Speaker and George Burns of Detroit. Benny Kauff was startled Saturday afternoon by receiving a note signed by several prominent suffragettes. It read: "Please accept our sincere thanks for remembering us and giving us an

Benny Kauff says the only thing that stands in the way of his hitting in the National League as he did in the Feds is that the pitchers won't give him a good ball to hit. And no explanation could be clearer than that.

Umpire Silk O'Loughlin put the Yankees in such a temper yesterday at Chicago that they lost the game. In the sixth inning, with the score only 5 to 4 in favor of the White Sox and one man on second, Pitcher Fisher made a sensational catch close to the ground. He threw to second for a double play. O'Loughlin ruled it was not a fair catch. This discouraged the Yanks so much that they lost the game, 12 to 4. O'Loughlin's decision was so raw that even the Chicago rooters hooted him.
